2020 Symposium

Past, Present and Future of Natural Product Research

천연물 연구의 과거, 현재, 미래

2020년 11월 20일(금) 2:00 p.m.
충남대학교 약학대학 1층 삼남홀 (W6, 105호)
Online conference (Zoom)

- | 주관 | 충남대학교 의약품개발연구소
4단계 BK21 D4기반 혁신신약개발
스마트미래인재양성사업단
- | 후원 | 충남대학교 산학협력단

Invitation

It is our great pleasure to invite you to the 2020 International Symposium on "Past, Present and Future of Natural Product Research", which is co-organized by Institute of Drug Research & Development, Chungnam National University (CNU), BK21 four "Graduate Program for S.M.A.R.T. Pioneers Leading Data-driven Innovation in Drug Development"

Natural materials are one of the most important resources for the development of new drugs, and the research accomplishments on them are remarkable. Development research using single substance or a natural new drug has become a very important part of the new drug development field recently. The brilliant development of natural products chemistry and biopharmaceuticals using advanced experimental techniques is driving research on new drug development, and future diseases. At this symposium, we are going to discuss the latest knowledge of natural resources for new drug candidates using advanced practical techniques that have recently been developed.

This symposium honors Prof. Young-Ho Kim, who has lectured natural products for 25 years in the college of pharmacy, CNU and retire in February 2021. Six prominent speakers are invited to speak in this symposium.

We are sure that this symposium will provide valuable information about strategies and trends in natural products. Please come and enlighten the congratulatory symposium in College of Pharmacy, CNU.

1st Nov. 2020

Prof. Chang-Seon Myung, Director
Institute of Drug Research & Development
Chungnam National University

Prof. Gyu-Yong Song, Dean
College of Pharmacy, Chungnam National University

Program

2:00 PM Opening Remarks
Prof. Chang-Seon Myung, Director
(Institute of Drug Research & Development
Chungnam National University)

SESSION 1

(Chair: Prof. Min Kyun Na,
College of Pharmacy, CNU)

2:10 PM *Plenary Lecture*
Antitumor agents from natural sources

Prof. Sang Kook Lee
(Seoul National University)

2:40 PM Skin whitening products from medicinal plants

Prof. Jeong Ah Kim
(Kyungpook National University)

3:10 PM Chemical constituents and their bioactivities
from medicinal mushrooms

Dr. Li Wei, Senior researcher
(Korea Institute of Oriental Medicine, Daegu)

3:40 PM Coffee break

SESSION 2

(Chair: Prof. Yonug G. Shin,
College of Pharmacy, CNU)

4:00PM Chemical constituents from Vietnamese
mangrove and their anti-inflammatory and
cytotoxic activities

Dr. Le Ba Vinh, Post-doc.
(Institute of Drug Research & Development,
CNU)

4:30 PM Identification of potential inflammatory
inhibitors from *Aster tataricus*

Dr. Seo Young Yang, Research fellow
(Institute of Drug Research & Development,
CNU)

5:00PM Good memory of natural product research
during 40 years

Prof. Young-Ho Kim
(College of Pharmacy, CNU)

5:30 PM Closing Remarks
Prof. Gyu-Yong Song, Dean
(College of Pharmacy, CNU)
